

ClearGlass

Making Pensions Transparent

Market size and Landscape

- Tracy has pensions with her employer RBS.
- RBS has the money invested with their asset managers.

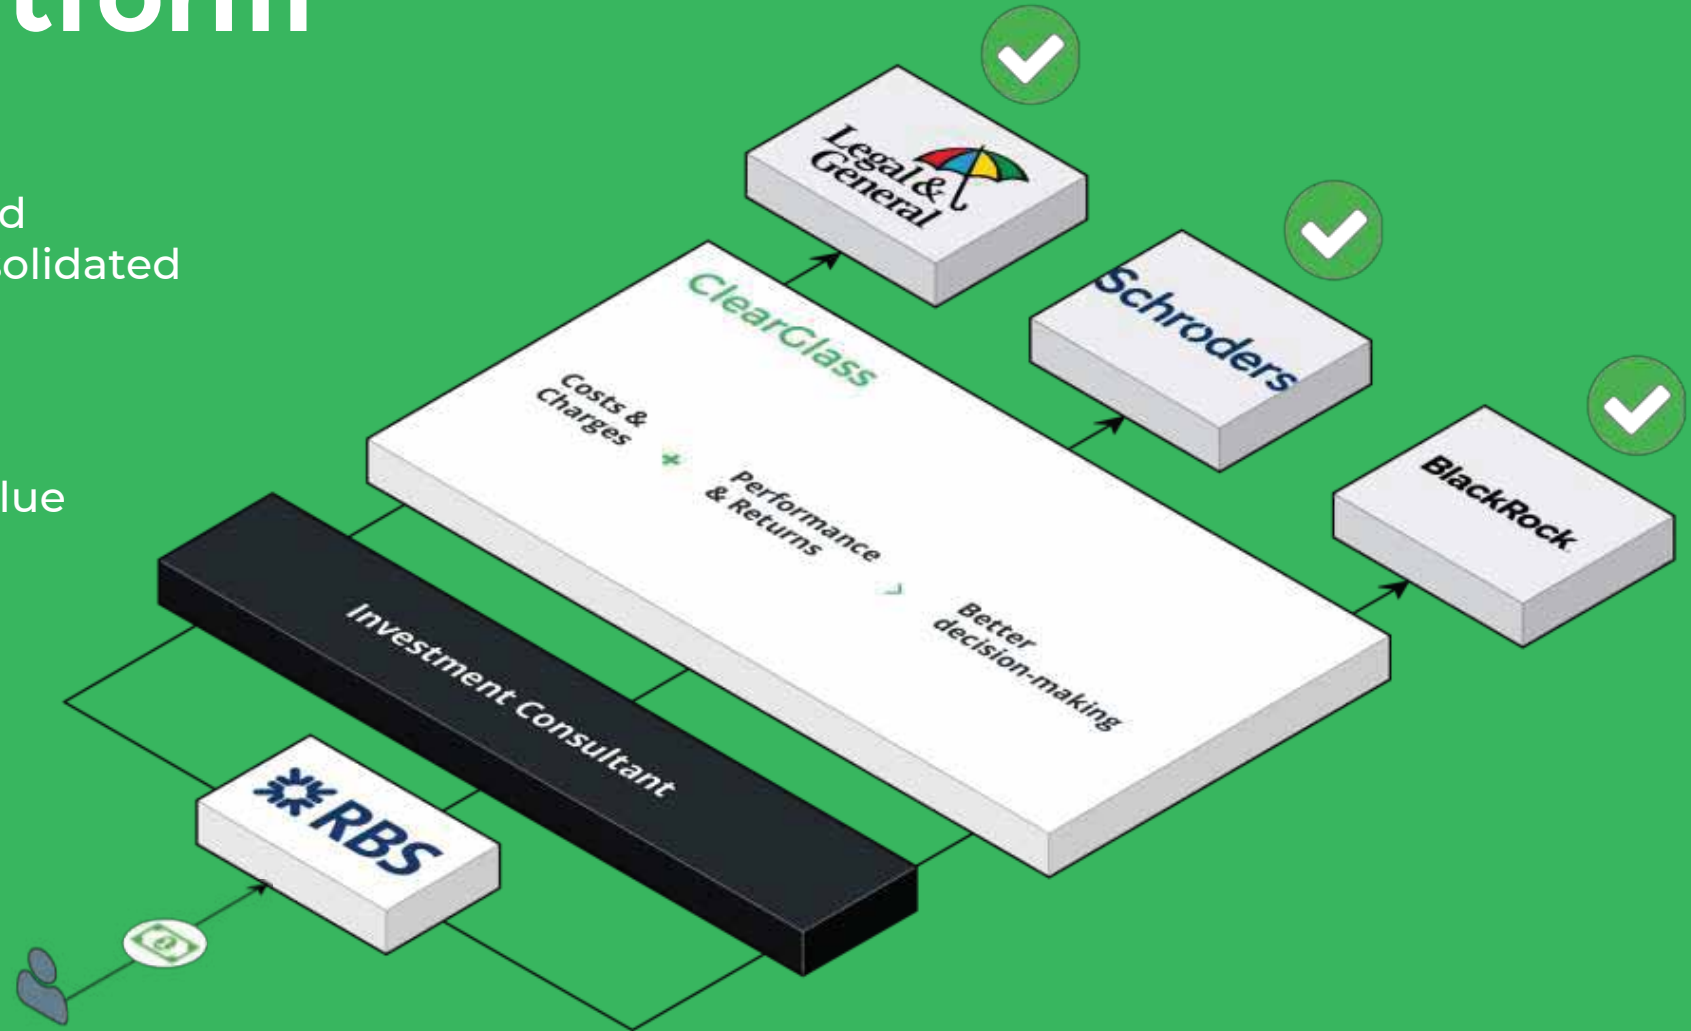

Lack of Transparency in the pensions industry

- No regulatory pressure on fund managers to disclose data.
- No Data standard for comparison.

Bringing transparency using our platform

- Building the infrastructure and connectivity to provide a consolidated view.
- Help the pension schemes understand their costs and value for money

1% reduction in fees alone
can double people's
retirement money.

Why are we the right people to solve this problem?
